Patrick Lang

Full Stack Developer

OBJECTIVE

Motivated and flexible Full Stack Developer with 2 1/2 years professional coding experience and academic teaching background seeks position at cutting-edge tech firm.

EXPERIENCE

Full Stack Developer, MassMutual Life Ins Co; Boston, MA — 2022–Present
- Collaborated on an agile development team building policy-servicing software for financial professionals (Primarily React and NodeJS).
- Led my team's migrations from in-house hosted Kafka to Kafka Confluent Cloud and from in-house hosted Vault to Vault SaaS.
- Developed team processes for Thymeleaf HTML email template creation. Partnered with Communications API and WAE teams to ensure correct display of components.
- Built proof of concept for agent aggregate book of business data dashboard, including visuals (ChartJS).
- Played key roles in Docusign integration, Policy Coverage Summary download, Digital Registration Email, among other projects.

Teaching Assistant Professor of German and Russian Language, UNC Chapel Hill; Chapel Hill, NC — 2019–2021
Teaching Fellow and PhD Candidate, Duke University and UNC Chapel Hill, NC — 2012-2019
- Developed and lead courses on Russian and German language and culture.
- Wrote book-length thesis on German theater and the atomic bomb.

EDUCATION

Duke University, Durham, NC, and UNC Chapel Hill, NC — PhD in German Studies, 2019
Trinity College Dublin, Dublin, Ireland — MPhil in Comparative Literature, 2012
State University at New York, Buffalo, NY — BA in Political Science, 2011

PROJECTS

My portfolio showcases a number of applications I built prior to my first professional coding job. See: patricklangcoding.onrender.com

SKILLS

Regularly Used Technologies: Javascript | Node.js | React.js | Jest | Express.js | Axios | React-Bootstrap | GitHub | Jira | Postman | Jenkins | LaunchDarkly | Vault
